Physiotherapy Center, NCKUH

I've been expecting the smart rehab device like KNEESUP, which not only reduces the number of outpatients but to provide care to people in need at any time. KNEESUP Med is more than what I expected. Based

The elder returning to activity

Yang * Jhen**

Proximal tibia fracture / ORIF

Last year I broke my left calf in a car accident. Both the tibia and fibula were broken. It was very painful in the first week after the surgery. I got released after 14 days and my daily life was dependent on

Triathlon & marathon enthusiasts

Chen * Sheng**

Sports injury / ACL recon.

Before the surgery, I was concerned that the rehab process would be troublesome and I had to go back and forth to the hospital all the time. I started using KNEESUP after I went back home from the
