Artificial Intelligent system for detecting technical mistakes and reporting key performance indicators

Unique data

TECHNIQUE INDICATORS

- Ball is not approaching frontally
- Supporting leg is not beside the ball
- Upper body is not over the ball
- Toes are not pointing in the direction of play
- Upper body is not in direction of play
- Kicking leg doesn't swing loosely through
- And more

PERFORMANCE INDICATORS

- Number of touches
- Time between touches
- Kicking leg right/left (%)
- Ball control time
- Rebound after first touch
- Distance covered
- Speed of returning to position
- And more

All this data collecting about every kick of the ball automatically in real-time
