The Sports Administration Expands Promotion of Adapted Physical Education: Correctional Schools Now Eligible for Subsidies

- The Sports Administration has revised regulations to extend subsidies for the purchase of sports equipment and adapted physical education teacher empowerment to youth correctional schools, ensuring equal rights access to sports for all students. (Photo: SA Chief Secretary Lu Chung-jen)

To implement equal rights in sports, the Sports Administration (SA) issued an amendment to the “Principles of Funding for the Sports Administration to Subsidize Promotion of the Development of School Physical Education” on July 16 this year (2024), adding that juvenile correctional

schools can apply for subsidies from the SA to purchase sports equipment and equipment for promotion of adapted Physical Education (PE), expanding the promotion scope of adapted PE from ordinary schools to juvenile correctional schools under the jurisdiction of the Ministry of

Justice; this move ensures that all students with mental and physical disabilities can equally participate in PE classes.

According to the revised “Special Education Act” announced on June 21 last year, schools should provide support services for students with disabilities, and “sports aid services” and “adapted PE services” have been added. In response to the Legislative Yuan's Education and Culture Committee's recent concerns about human rights issues related to students with disabilities in juvenile correctional schools, the SA has recently cooperated with the Agency of Corrections of the Ministry of Justice (MJAC) in an inter-departmental manner to assist in providing juvenile correctional schools with adapted PE-related resources to allow special students of correctional schools to also enjoy adapted PE services.

In order to help establish links between juvenile correctional institutions and special education-related resources, the Ministry of Education formulated the “Juvenile Correctional Institutions Special Education Support Network Plan” in 2019 and it has been operating since. Through the mutual complementation of the existing support network, the SA approved funds to subsidize the National Pingtung Special Education School in June 2024 to assist correctional schools in promoting adapted PE, and signed

sports aid lending regulations and memorandum with correctional schools to integrate and connect correctional schools’ adapted PE resources through resources sharing.

With new equipment in place, it's essential for teachers to know how to incorporate it into their teaching. To address this, the SA collaborated with juvenile correctional schools to host a training session on adapted physical education on June

11, 2024. The MJAC invited correctional education teachers and professionals under its jurisdiction to participate, aiming to enhance their knowledge of adapted physical education.

Adapted physical education involves making relevant adjustments to physical education classes, tailored to the individual needs and physical or mental conditions of students with disabilities. Going forward, correctional schools will be able to apply for appropriate equipment or sports aids based on the unique needs of students. The SA will also provide a professional team to offer ongoing guidance and support to these schools.

Tu Chih-hung, the principal of correctional school Mingyang High School, said that the school currently accommodates a large number of students with learning disabilities and emotional and behavioral disorders. The infusion of physical education resources can enable children with learning and emotional disabilities in correctional schools to receive high-quality physical education classes and implement the concept and spirit of integrated education.

The SA stated that it hopes that through the expansion of adapted PE, students with disabilities in correctional schools can grow and be inspired in sports, giving them more support and warmth.

■ 體育署擴大推動適應體育 矯正學校納入補助範圍

為落實運動平權，教育部體育署於今(113)年 7 月 16 日發布「教育部體育署補助推動學校體育運動發展經費原則」修正條文，增訂少年矯正學校在推展適應體育的需求下，可以向體育署申請補助購置體育設備及器材，將適應體育的推動範圍，由一般學校擴大至法務部主管的少年矯正學校，保障所有身心障礙學生都可以平等參與體育課程。

依據去(112)年 6 月 21 日公布修正的《特殊教育法》，學校應提供身心障礙學生的支持服務項目，新增了「運動輔具服務」與「適應體育

服務」。因應立法院教育及文化委員會近日對少年矯正學校身心障礙學生相關人權議題的關注，體育署近日與法務部矯正署合作，以跨部會方式，協助提供少年矯正學校適應體育相關資源，保障矯正學校的特教學生也能享有適應體育服務的權利。

為協助建立少年矯正機關與特殊教育相關資源連結，教育部於 108 年已訂有「少年矯正機關特殊教育支持網絡計畫」並運作多年。透過既有支持網絡的相輔相成，體育署於 113 年 6 月核定補助國立屏東特殊教育學校相關經費，

協助輔導矯正學校推動適應體育教學，並與矯正學校簽訂運動輔具借用辦法及備忘錄，以資源共享的方式，與矯正學校進行適應體育資源的整合與串聯。

有了設備，也需要讓教師們知道在教學中如何使用，因此體育署與少年矯正學校合作，在 113 年 6 月 11 日辦理了適應體育增能研習，由法務部矯正署邀請轄下實施矯正教育的教師與專業人員參加，讓相關人員的適應體育知能得到進一步提升。

適應體育的特色，針對身心障礙學生的個別需求與身心狀況，於體育課中進行相關的合理調整。未來矯正學校可以依據身心障礙學生

的特殊需求，申請購置合適的設備器材或運動輔具，體育署也將委由專業團隊，提供矯正學校相關的輔導與協助。

矯正學校明陽中學涂志宏校長表示，目前學校內收容有大量的學習障礙及情緒行為障礙的學生，適應體育資源的挹注，可以使矯正學校中的學、情障孩子得以接收優質的體育課程，落實融合教育的理念與精神。

體育署表示，期待透過適應體育的擴大推動，讓矯正學校的身心障礙學生，能在運動中受到成長與啟發，給他們更多支持溫暖的力量。

► President Lai Ching-te (middle) presents the flag to Taiwan's delegation to the 2024 Paris Paralympic Games (on the left is Deputy Minister of Education Chang-Liao Wan-Chien and on the right is President Mu Min-chu of the Chinese Taipei Paralympic Committee)

With the wonderful conclusion of the 2024 Paris Olympic Games, the 17th Paris Paralympic Games 2024 (hereinafter referred to as the Paralympic Games) was held from August 28 to September 8, 2024. The Taiwan delegation took direct flights to Paris on August 23 and September 1, respectively. President Lai Ching-te, Deputy

Minister of Education Chang-Liao Wan-Chien and Director-General of the Sports Administration (SA) Cheng Shih-chung attended the flag-presenting ceremony of the Paralympic delegation in person on the afternoon of August 23. President Lai exhorted the coaches and the players to strive for the highest honors in Paris.

President Lai said that for the upcoming Paralympic Games in Paris, the government has used the same resources as the Olympics to support the athletes. He expressed the hope that all Taiwanese people would continue to be the strongest backers of Taiwan's sports heroes. On behalf of all, he expressed his special thanks to the rehabilitation doctors and other professionals such as urologists, physical therapists, athletic trainers, psychological counselors, nutritionists, chefs, intelligence collection personnel, sports physiologists and sparring partners who are accompanying the delegation. He also recognized the hard work during the period from training to participation in competition of athletes, coaches and personnel of relevant agencies (units).

During the flag-presentation event, President Lai shared exciting news with the delegation. The Ministry of Education has officially revised the "Regulations for Rewarding Outstanding Disabled Sports Athletes and Their Meritorious Coaches", significantly increasing the prize amounts. Gold medal winners at the Paralympic Games would receive NT\$6 million (up from NT\$4 million), while the coaching team would receive NT\$800,000 (up from NT\$250,000). Athletes could opt for a lump-sum payout or receive NT\$31,000 per month. President Lai encouraged the athletes to go for the medals without hesitation.

In addition to presenting the national flag and delegation flag to Taiwan's Chef de Mission, Mu Min-chu, President Lai also presented extra bonuses and lucky amulets to encourage the athletes. These were accepted by wheelchair badminton player Hu Guang-chiou, powerlifter Lin Tzu-hui, and archer Tseng Long-hui. The athletes expressed their gratitude for President Lai's personal encouragement and called on people from all walks of life to support Para athletes. Echoing the International Paralympic Committee's (IPC) vision of "Making for an inclusive world through Para sport", they believe that both the delegation and supporters of the Paralympic Games will play key roles in improving Taiwan and making a positive impact on the world.

► President Lai Ching-te (middle) awarded an extra bonus of NT\$200,000 (on the left is powerlifter Lin Tzu-Hui and on the right is wheelchair badminton player Hu Guang-chiou receiving it on behalf of the delegation)

The SA stated that the resources allocated for preparing and participating in the 2024 Paris Paralympic Games are the most comprehensive to date. To fully support athletes, the “Paralympic Games Preparation Plan” was launched in December 2020. For the first time, athletes have been stationed at the National Sports Training Center for long-term training, allowing them to focus on preparation in a fully supportive environment. The Chinese Taipei Paralympic Committee, National Sports Training Center, and Taiwan Institute for Sports Science worked together to provide extensive logistical, physical, and personnel support, ensuring athletes have everything they need. For the first time, logistical services such as pensions, access to sports centers, and physical therapy outside the athlete’s village have been included, aiming to provide the most complete support for both athletes and coaches.

This year, Taiwanese athletes will compete in 7 sports, including table tennis, badminton, archery, taekwondo, track and field, powerlifting and judo. 13 athletes from Taiwan are participating in total. Taekwondo is included for the first time. The delegation for Paris is led by powerlifter Lin Tzu-hui, participating in the Paralympics for the 6th time and archer Tseng Long-hui, competing for the fifth time. Everyone is fully prepared to strive for the highest glory.

The 2024 Paris Paralympic Games and the Paris Olympics use the joint event slogan “Games Wide Open”, hoping that through the event, all countries and regions will work together to promote openness, integration and equality in sports, and create a more inclusive and integrated

society. After the end of the Olympics, the SA calls on the people to not miss the wonderful performances of the Paralympic Games, calling on everyone to cheer for Taiwan’s athletes. We look forward to the Taiwan delegation achieving great success in Paris and invite the people to cheer for the heroes of Taiwan.

Enterprises Provide Support to Assist Taiwanese Athletes

► Enterprises and athletes jointly participate in the grand Sports Corporate Sponsorship Appreciation Meeting

To thank private enterprises for investing resources in sponsoring sports, the Sports Administration (SA) held the “Sports Corporate Sponsorship Appreciation Meeting” in Taipei and Taichung on July 26 and August 9, 2024, respectively. More than 25 successful sponsorship combinations of companies and recipient athletes and teams were invited to the two sessions, gathering to give praise and express gratitude. In addition, the public

welfare micro-movie “Dream of Flying on Flying Fish” was also screened in at the Taichung session, telling the touching story of the Dongao Elementary School Archery Team's long-term sale of flying fish to raise training funds.

In recent years, domestic athletes and teams have achieved great success in important international sports events, not only attracting many people to watch the

events, but also promoting enthusiastic participation in sports. It is expected that through the government's active promotion of tax incentives and the private sector's active investment of sponsorship

resources, we can jointly develop a culture of sports sponsorship and let the government, private sector and sports create a win-win situation together!

Results of Taiwan's Major Baseball Competition and Training Venue Survey Released Upgraded Stadium Ratings Enhance Competition and Viewing quality

- Sports Administration commissioned National Taiwan University of Sport (NTUS) to conduct the “Taiwan's Major Baseball Competition and Training Venue Survey”

To assess the overall maintenance and renovation of major venues for international events, professional baseball games, and training in Taiwan, the Sports Administration (SA) commissioned National Taiwan University of Sport (NTUS) to conduct the “Taiwan's Major Baseball

Competition and Training Venue Survey” starting in June 2022. The survey involved visits and classification of 22 baseball stadiums across Taiwan. According to the survey, 6 stadiums were classified as Grade A (Rakuten Taoyuan Baseball Stadium, Taichung Intercontinental Baseball

Stadium, Yunlin Douliu Baseball Stadium, Kaohsiung Chengcheng Lake Baseball Stadium, Taipei Tianmu Baseball Stadium, New Taipei Xinzhuang Baseball Stadium), and 5 as Grade B (Tainan Municipal Baseball Stadium, Chiayi City Municipal Baseball Stadium, Hualien Baseball Stadium, Taitung Baseball Village No. 1 Baseball Stadium, Asia Pacific Baseball Subfield). Additionally, 11 stadiums were classified as Grade C and D, suitable for amateur leagues, third-tier baseball leagues, and community-based leisure events.

The SA stated that, in addition to visiting the home stadiums used by Taiwan's Chinese Professional Baseball League (CPBL) teams, the plan also covered venues used by adult leagues and well-located basic baseball stadiums. The assessment focused on “stadium capacity”, “administrative and competition-related facilities”, “playing field conditions”, “turf structure”, “mechanical and electrical systems”, and “civil construction”. Relevant improvement suggestions were made. In recent years, all baseball stadiums have enhanced the quality of their competition venues and services. Compared with the survey conducted in 2015, the improvements made to each stadium have led to some evaluation upgrades (such as Tianmu and Xinzhuang up to Grade A; Chiayi City, Hualien and Taitung up to B).

The current spatial planning of baseball stadiums is geared towards exclusive use for competitions, offering teams more professional facilities such as cold therapy pools, gyms, player lounges, storage spaces, and air purifiers. Professional baseball stadiums have also upgraded fan spaces, adding amenities like parent-child recreation areas, picnic spots, and barbecue zones to enhance the viewing experience. Additionally, the standards and quality of competition venues have improved, with upgrades like LED stadium lighting, smoother infield and outfield turf, and consistent grass seeding. These improvements not only align with energy-saving and carbon-reduction policies, reducing electricity costs, but also reflect increased attention from local governments towards stadium maintenance.

In addition, the SA has implemented the “National Sports and Competition Environment Optimization Plan” and has successively approved subsidies for Rakuten Taoyuan Baseball Stadium, New Taipei City Xinzhuang Baseball Stadium, Tainan Asia-Pacific International Baseball Stadiums, Taichung Intercontinental Baseball Stadium, Taipei Tianmu Baseball Stadium, Yunlin Douliu Baseball Stadium, and will continue to help improve the deficiencies of each stadium to provide better quality competition and viewing quality.

The SA expressed its hope that this survey will help assess the current condition of each stadium and provide local governments with valuable insights for future planning and improvements. Moving forward, the SA will continue to guide and assist local governments in enhancing baseball field facilities at all

levels, strengthening stadium operations, maintenance, and management to maintain facility quality. The goal is for these high-quality venues to foster the growth of professional baseball in Taiwan while also laying a solid foundation for the development of grassroots baseball.

我國棒球競賽及訓練主要場地調查計畫成果出爐 球場評比升級 競賽及觀賽品質提升

為檢視我國舉辦國際賽事、職業棒球賽及訓練主要場地整體維護及整修後狀況，並重新檢視我國棒球場地分級，教育部體育署委託國立臺灣體育運動大學辦理「我國棒球競賽及訓練主要場地調查計畫」，自 111 年 6 月起歷時 2 年完成全臺 22 座不同等級之棒球場訪視及分級。本次訪視結果 A 級球場計 6 座（樂天桃園棒球場、臺中洲際棒球場、雲林斗六棒球場、高雄澄清湖棒球場、臺北天母棒球場、新北新莊棒球場），B 級球場計 5 座（臺南市立棒球場、嘉義市立棒球場、花蓮德興棒球場、臺東棒球村第一棒球場、亞太成棒副球場）。另 C、D 級球場計有 11 座可作為業餘聯賽、三級棒球聯賽及社區型休閒推廣賽事使用。

體育署表示，本次計畫除訪視中華職棒各球隊使用主場外，亦加入成棒聯賽使用場地及區位較佳的簡易棒球場，分別針對「場地球場容量」、「行政賽務必要空間」、「競賽場地」、「草坪結構」、「機電設備」及「土木建築」等 6

大面向進行訪視，並提出相關改善建議。各球場近年均致力於提升場地競賽及服務品質，相較於 105 年所作調查，各球場獲得改善後，已使部分球場評比升級（如天母及新莊升為 A 級；嘉義市、花蓮及臺東升為 B 級），目前棒球場空間規劃均朝向比賽專用方向設置，提供球隊更多專業的競賽及行政空間，如設置冷療池、健身空間、球員休息室置物空間及空氣清淨機等，職棒使用之球場亦改造升級球迷使用空間（如設置親子遊憩區、野餐區、烤肉區等），提供觀賞球賽更加有趣且友善之體驗。另外在競賽場地的標準及品質上亦有所提升，如球場照明改為 LED 燈、紅土區及外野草坪的平整性、草種的一致性，除可落實節能減碳政策減少電費支出，並提供更多元燈光視覺效果外，亦表示國內各縣市政府越來越重視球場養護事宜。

另體育署執行「優化全民運動與賽會環境計畫」，已陸續核定補助樂天桃園棒球場、新

北市立新莊棒球場、臺南亞太國際棒球場、臺中洲際棒球場、臺北天母棒球場、雲林斗六棒球場等場地，將再就各球場不足之處予以協助改善，提供更優質競賽及觀賽品質。

體育署表示，希望能藉由本次調查計畫再次盤點各球場現況，提供各地方政府作為未來管理及改善球場規劃之參考。後續亦將持續輔導及協助地方政府改善各級棒球場地設施，加強球場營運維護管理與維持球場設施品質，也期待藉由完善的場地帶動我國職業棒球運動發展及基層棒球發展基礎與環境。
